## Redrawer needed for Deathtopia!

Well, it was bound to happen sooner or later. The top-notch redrawer who has been in charge of this series for a while, Azuma, has decided to end his current involvement with it after he does the next chapter. We had asked him to work on it when the chapters had very few and easy redraws, but recent chapters have taken too much of his precious time and so, by common agreement, chapter 40 will be his last.

This means that, unless someone applies to do this, the nice release pace you have been seeing will be over. The series isn't too difficult in comparison with our other series, but I think by now I need to ask you to take our simplified test to do it, at the very least.

Here it is: <https://goo.gl/4cJNBk>

You can find a form about your interest and availability to fill here: <http://goo.gl/bHNLAg>

You can bundle the PSDs into a compressed ZIP or RAR folder and send the download link to me via our site ([deathtollscans.net](http://deathtollscans.net)), Batoto (nickname kendama) or post it as a thread in the Join Us section at Death Toll. Please remember to include the form.

Alternatively, if you have experience you can send me a sample of your past work (as PSDs) and if we're convinced we can let you bypass the test.

Feel free to contact me for any questions.

## Odd pickings section

Well, one of our redrawers, Green Demon, took the **Deathtopia** job, so we're back to recruiting only for our other series.

We need a typesetter for **Funouhan**. You only have to take our test. Releases won't be very frequent but the chapters are rather long, so the workload is average.

We are also trying to get new translators. Now, if you are a translator looking for a group, how about helping us to revive a series, or start a new one? I cannot promise regular releases, but we can certainly get bait chapters out to recruit for staff. Death Toll is a small, laid-back team that does second-tier and obscure manga, and made up mostly of seasoned scanlation veterans or talented rookies. Our translation test is very short. And if you are experienced, no test needed. We have several series more or less close to completion, or short, or that we could get staff relatively quick for, like **Underdog**, **Shounen Y**, **Demon Assassins** and **Diamond Cut Diamond**. Wanna try a stint with us?

Applicants can find details on how to apply and tests in our Join Us section at [deathtollscans.net](http://deathtollscans.net), or send me a PM there or in Batoto (nickname: kendama). I'm available to answer any questions.

BECAUSE OF  
THAT, FUJIMURA  
WAS ABLE TO  
CAPTURE YUI  
KISARAGI'S

AND RESONATE  
WITH THEM.

TLN: Since she is a character, the sentence is not easy to translate. She said "the work itself" which was meant the other "process" the poison... as a chemical would... or that she "enjoys" it as her ability.

IT WORKED  
OUT BETTER

## Odd pickings section

Death Toll is working rather well these days. We're not quite in a comfort zone, though.

We need a typesetter for **Funouhan**. You only have to take our test. Releases won't be very frequent but the chapters are rather long, so the workload is average.

We are also trying to get new translators. Now, if you are a translator looking for a group, how about helping us to revive a series, or start a new one? I cannot promise regular releases, but we can certainly get bait chapters out to recruit for staff. Death Toll is a small, laid-back team that does second-tier and obscure manga, and made up mostly of seasoned scanlation veterans or talented rookies. Our translation test is very short. And if you are experienced, no test needed. We have several series more or less close to completion, or short, or that we could get staff relatively quick for, like **Underdog**, **Shounen Y**, **Demon Assassins** and **Diamond Cut Diamond**. Wanna try a stint with us?

Applicants can find details on how to apply and tests in our Join Us section at [deathtollscans.net](http://deathtollscans.net), or send me a PM there or in Batoto (nickname kendama). I'm available to answer any questions.

## Spacing releases for a while

You surely noticed that this chapter took much longer to come out than the previous ones. It took a while to redraw, it's true, but we also have a design to this.

Basically, it would be poor strategy to catch up to Japan right now.

I am going to travel for seven weeks, April to June 01, and if we caught up before that, you would be hung out to dry for the whole period, as I won't be able to translate.

Thus, we decided to turn the chapters we have already scanned into a buffer: we will release them in two-week intervals (exactly the period Japanese readers have to wait) so that we can keep releasing during the period of my trip. When I come back, we will be at most four chapters behind and then we can catch up.

Right now, we have everything translated and cleaned up to the latest chapter (49); proofed up to 48 and typeset up to 46. We will keep scanning until my trip, so rest assured that releases will continue.

Thanks for understanding.

## Recruiting new cleaners and redrawers (tentatively)

We have a new translator. I'll introduce him with our first release of chapter of his, which should happen soon. However, because of that a slight imbalance has been generated and we could do with at least one new cleaner and a redrawer to help with his series. Right now, he is working on something we had in limbo for quite a while, but after that we will start on something new or more ambitious, so if you would like to help along and join a group that has finally expanded a little, please take our tests and apply! I hope to have more details on new projects he wants to do soon, but he has already shown interest in Shounen Y.

WHAT IS  
MURASAME  
UP TO...?

SHUT UP,  
RINZE!

IF YOU  
THINK ABOUT  
IT, WASN'T  
THIS BECAUSE  
YOU SHOWED  
YOUR FACE TO  
SAKI YAGAMI?

OH, WELL.

NO WAY. COULD

When volume 06 came out, we had already scanned all of its pages. This means that, although we're bundling the colour pages with this chapter, the pages of the chapter itself are from magazine webcraws. That's also why we didn't bother to include the table of contents, either (since all the chapters in the volumes, save for this one, are long known to the English-speaking readers).

## Redrawer needed for Deathtopia!

One of our axes, Green Demon, decided he just wanted to work on his main series and not on this one any longer. Death Toll is not a group that tells its members what to do, so I promptly relieved him of this assignment, effective from chapter 49 or 50. (The ones up to there, as you know from my previous announcement on the matter, are already scanned and ready for release and will come out in intervals of two weeks.)

This means we need a redrawer for this. We initially picked *Deathtopia* because it is much easier to redraw than our other series, but as it progressed, the author got a little more ambitious, so we need to test applicants. Our redrawing test is notorious for its difficulty, but we do have a simpler version that is good enough for *Deathtopia* if you pass:

This is our series-tailored test. The link has a few folders, but you only need to do the contents of the one labelled "CameraF". And don't ignore the Read Me.txt file!

You can also bypass the test if you have previous experience, but we need to see a sample of PSDs (including the layer with the rows) featuring your skills. We reserve the right to ask for more samples or insist that you take a test if we are not impressed.

We have until early June (2016) to find someone. The one who joins will have to deal with a four-chapter backlog but after you catch up, we only need you to be able to redraw a chapter every two weeks.

Thank you for your attention.
